Index □ Volume 32, 1984

ARTICLES *(by title)*

Adult-child interaction in children's learning from "Sesame Street," Robert A. Reiser, Martin A. Tessmer, *and* Pamela C. Phelps, 32:4 217–223

Clark's "Learning From Media": A critique Michael D. Petkovich *and* Robert D. Tennyson, 32:4 233–241 (followed by Clark's reply)

Film and text: Order effects in recall and social inferences, Paul S. Cowen, 32:3 131–144

Identification of visual dimensions in photographs using multidimensional scaling techniques, Marina Stock McIsaac, Mary Lou Mosley, *and* Naomi Story, 32:3 169–179

Media and technology in education: A constructivist view, Catherine Twomey Fosnot, 32:4 195–205

The mediation of experience and educational technology: A philosophical analysis, David H. Jonassen, 32:3 153–167

Mnemonic-strategy reduction of prose-learning interference, Christine B. McCormick, Joel R. Levin, Frank Cykowski, *and* Paula Danilovics, 32:3 145–152

The proper study of instructional technology, Robert Heinich, 32:2 67–87

Reducing student procrastination in a personalized system of instruction course, Robert A. Reiser, 32:1 41–49

Response to crisis: A developer's look at the importance of needs assessment to teacher educators in the design of computer literacy training programs, Ludwig Ganske *and* Pauline Hamamoto, 32:2 101–113

Review of conversation theory and a protologic (or protolanguage), Lp, Gordon Pask, 32:1 3–40

Two experiments on the effects of mnemonic strategies: Is it mode or cognitive function that influences learning?, Hing-Kay Ho, 32:2 89–100

Visual cueing strategies: Pictorial, textual, and combinational effects, Charles R. Beck, 32:4 207–216

Visual literacy: A failed opportunity, David Sless, 32:4 224–228

"Where's the Beef?": A reply to Heinich, Richard E. Clark, 32:4 229–232

INTERNATIONAL REVIEW *(by title)*

The craftsman and the computer, Jean Marc Etot *and* Jean Fumex. *Abstracted by* Nick Eastmond, 32:3 180–182

Demotivating factors in higher education or "How to kill the instinct for innovation in students," Philippe Olmer. *Abstracted by* Nick Eastmond, 32:2 117–118

The effects of field dependence on programmed instruction and normal instruction in learning achievement, Zhang Bi-ying. *Abstracted by* Rengen Li, 32:2 116–117

An invitation to participate and **New research program on cost-effective learning technologies,** Michael Molenda, 32:4 242–243

The key to the crisis, according to Jean-Jacques Servan-Schreiber, the computer revolution, André Desmartis. *Abstracted by* Nick Eastmond, 32:1 50–51

The most up-to-date technology for the schools, I. Driga. *Abstracted by* Stephen T. Kerr, 32:2 114–116

The present state of audiovisual education in Japan, Mitsuhiro Inoue, James D. White, Akiko Uemura, *and* Takashi Sakamoto. *Abstracted by* James D. White, 32:3 182

Reading skill and text structure, Jarl Backman, Ingvar Lundberg, Lars-Göran Nilsson, *and* Kjell Ohlsson. *Abstracted by* Rune Pettersson, 32:1 50

USSR university equipment—For the development of a technological base, V. V. Krynkin. *Abstracted by* Stephen T. Kerr, 32:2 114–116

What should we teach the technician?, G. E. Germaidze *and* I. V. Molchanov. *Abstracted by* Stephen T. Kerr, 32:1 51–52

BOOK REVIEWS *(by title)*

Countering educational design, Ted Nunan. *Reviewed by* Sivasailam Thiagarajan, 32:1 57–59

Information technology: An introduction, Peter Zorkoczy. *Reviewed by* Denis Hlynka, 32:1 59–60

Instructional-design theories and models, Charles M. Reigeluth, *ed. Reviewed by* Richard E. Clark, 32:2 119–123

New information technology in education, David Hawkridge. *Reviewed by* Denis Hlynka, 32:1 59–60

Orality and literacy: The technologizing of the word, Walter J. Ong. *Reviewed by* D. Michael Deckman, 32:4 244–247

Teaching for competence, Howard Sullivan *and* Norman Higgins. *Reviewed by* Marcy P. Driscoll, 32:3 183–184

The world wired up: Unscrambling the new communications puzzle, Brian Murphy. *Reviewed by* Denis Hlynka, 32:1 59–60

Clark, Richard E., 32:2 119–123
Deckman, D. Michael, 32:4 244–247
Driscoll, Marcy P., 32:3 183–184
Hlynka, Denis, 32:1 59–60
Thiagarajan, Sivasailam, 32:1 57–59

RESEARCH ABSTRACTS
(by title)

Acceptance presentation and research study summary: Research in educational communications and technology. 1982 Association for Educational Communications and Technology Young Researcher Award, Research and Theory Division, James Canelos, 32:2 126

An analysis of the consistency and effects of reported learning-strategy use by third and fourth graders, Michael J. Hannafin, 32:2 124

A comparison of schematic processes in memory for a television, text, and radio story, Arielle Lehrer *and* Kathy Pezdek, 32:4 248–249

Cerebral lateralities and individualized instruction. Final report, Pat-Anthony Federico, 32:4 251–252

Computer programming by kindergarten children using LOGO, Sandra Munro-Mavrias, 32:3 188–189

Computer-managed instruction: Individual differences in student performance, Pat-Anthony Federico, 32:4 252

Computer-managed instruction: Stability cognitive components, Pat-Anthony Federico, 32:4 250–251

Content independent learning strategies and their relative effectiveness on acquiring concept information and spatial information when learning from visualized instruction, James Canelos *and* others, 32:2 125

Cueing and anxiety in a visual concept learning task, Philip M. Turner, 32:1 63

Curriculum decision-making and educational television, Michael T. Williams, 32:3 186

Development of aural perception of selected percepts of musical form utilizing programmed instruction, Nicholas Bridges, 32:1 63–64

Educational technology and teacher competence: Identification and preservice assessment, Patricia S. Ernest, 32:2 125–126

Effects of a teleconference experience on the type of concerns expressed by teleconference participants, Alan G. Chute *and* others, 32:2 126

Effects of readers' cognitive style, text structure, and signaling on different recall patterns in social studies content, Paul J. Blohm *and* Clyde G. Colwell, 32:4 249

The effects of viewing "Sesame Street" on learning styles and readiness of primary children, Jane Owens *and* Carolyn C. Williams, 32:3 190

Evaluating children's learning disabilities with an Apple II personal computer or tempting poor learners with an Apple, Lee Hansen Sisson, 32:3 188

An evaluation of the effectiveness of radio programmes in teaching English language to class six pupils in primary schools in South Nyanza-Kenya. African studies in curriculum development & evaluation, no. 46, Obiero O. Onganga, 32:3 190

An examination of instructional strategies used with two-way television, Jon J. Denton *and* others, 32:3 189–190

Factors affecting instructional television utilization in Alabama, Philip M. Turner *and* William Simpson, 32:1 61–62

Film and video utilization study, Bruce K. Johnson, 32:3 189

Four young children construct reality: Television watching in the home, Kathleen Scholl, 32:1 62

High school students' attitudes towards the media program—What makes the difference?, Yvonne A. Hodges *and* others, 32:1 62

Instructional media, attitude change and field dependence, Terryl R. Kloock *and* others, 32:1 63

Learning a procedure from multimedia instructions: The effects of film and practice, Patricia Baggett, 32:4 250

Level of reading comprehension and achievement with visualized instruction, Perrin E. Parkhurst, 32:2 124–125

Linking teacher theories to teacher practices, Carol Carrier *and* Karla Melvin, 32:3 185–186

Novice users' misconceptions of BASIC programming statements. Report No. 82-1, Piraye Bayman *and* Richard E. Mayer, 32:4 250

Precision teaching project. Formative evaluation, J. Howard Tolliver *and* others, 32:3 185

The relationship of field dependent/independent cognitive styles, stimuli variability and time factor on student achievement, Christopher I. Atang, 32:4 251

The relationship of learning style, aptitude, and instructional program variables to achievement in the military training environment, J. R. Enochs *and* others, 32:4 249

Television and children: Comprehension of programs. Research monograph, Sally Kent *and* others, *eds.*, 32:3 187

Telidon and computer assisted learning—A report on the first experiment using Telidon for CAL, D. Trueman, 32:3 188

Telidon distance education field trial. Alberta Correspondence School Mechanics 12, Telidon Project Evaluation, T. Craig Montgomerie, 32:3 187–188

Two-way radio in schools (or the loneliness of the long-distance learner). An evaluation of a high frequency short wave, two-way radio trial, Ian Conboy, 32:4 248

Two-way telecommunications: A viable technology for rural instruction?, Roger L. Hartz, 32:3 186–187

The systematic viewer: An inquiry into the existence of a television schema in children, Kathy Krendl Kwiatek *and* Bruce Watkins, 32:*1* 61
